INTRODUCE MODEL 90, 80 AND 70 TRACTOR

Erwin Yunker, local Massey-Harris dealer, has returned from St. Charles where he attended an introductory program revealing the latest designs in Massey-Harris Combines and Tractors, including Models 90, 80 and 70.

Mr. Yunker stated that the 90 and 80 feature a new hydraulic speed control and have a maximum road speed of 14 miles per hour. These models also feature a live axle drive which is completely enclosed in a heavily reinforced housing to give extra years of trouble-free harvests.

The 90 and 80 are full-width machines. Rasp-bar cylinder, straw walkers, shoe and fan are all the same width as the body. The 90 S. P. will be available with 16, 14 and 12 foot tables—the 80 S. P. in 14, 12 and 10, the 70 with 12, 10 and 8 1/2 foot cuts.

The lower-cost model 70 Self-Propelled, ideal for smaller acreages, features balanced separation, electric table lift, low center of gravity and many other advantages for more efficient, economical harvesting.

Mr. Yunker also was among the first to view the new Clipper 50 combines in Self-Propelled, Engine Powered and Power Take-Off models. The new Clipper 50 features include a large-capacity, 4-step strawrack for improved grain separation, new six-vaned beaters for greater threshing capacity and a positive chain drive for trouble-free operation.

Two new Massey-Harris tractors, the Colt and Mustang, were introduced at the program. Both are 2-pow tractors designed for maximum power, ease of handling and economy.

The Mustang, powered by a 140 cubic-inch engine, has a 3-point hitch, adjustable front and rear treads, lower and wider design and Velvet-Ride seat.

The lower-cost Colt has a 124-cubic-inch, hi-compression L-head engine, 3-point Hitch, comfortable seat, roomy platform with lower and wider design.

Both tractors feature muffler and exhaust under the hood with lowered air cleaner for better visibility.

Also exhibited were the new 2-3 plow 33 and 3-4 plow 44 tractors, equipped with live power-take-off. This feature allows the tractor to stop forward motion without reducing power take off speed—eliminating clogging of combines or choppers.

The new 33 tractor, with a 201 cubic-inch overhead valve engine, has a longer frame, 10-inch single disc clutch and larger tires for better traction.

NEW HOUSE BURNS DOWN

At 7:30 o'clock Sunday morning Mrs. Edmund Knowles noticed fire issuing from the home of Mr. and Mrs. Frank Kirk, Francis Road, New Lenox. She called Mrs. Kirk's sister, Mrs. Paul Francis, who lives nearby. Mrs. Francis immediately put in a call to the Mokena and New Lenox fire departments, who responded promptly. However, by the time they arrived on the scene the fire had gained such headway that it was impossible to save the house.

The house in question was a 4 room frame structure, in process of construction. It had been completed on the outside, with the doors and windows in, and was partly wired. The owners expected to have the wiring job completed by Monday, when the electricity was to have been turned on.

The Kirks live in Chicago where Mr. Kirk is employed as a machinist at the Reams Mfg. Co. Most of the construction work on the house has been done by Mr. Kirk himself, nights, and Saturdays and Sundays. They were expecting to move out here about the first of December.

The home is a complete loss, as it was uninsured. A loan had been made to partly cover construction costs, but no insurance on this was taken out.

It is thought that the fire was started by some hunters who entered the house during the night and built a fire to keep warm and then disappeared when the fire got beyond control.

TV PANEL TALKS ON CITY ANNEXATION

The idea we have so often heard lightly expressed, "Some day this whole area will be in the city of Chicago", is perhaps far closer to reality than many have expected.

This point was graphically illustrated by a TV panel discussion recently, on the subject, "What, if anything, does a suburban resident owe to the city of Chicago?"

Under discussion were two important questions, one as to whether Chicago should impose a payroll or income tax on all persons employed in the city, and the other, should the city of Chicago annex all the suburbs?

Alderman Merriam, who upheld the Chicago viewpoint, opened the discussion with the argument that more than 100 police forces and 1000 governments operate separately in the Chicago area, which should be resolved into one economic unit for zoning and catching criminals, and for highways. He argued that some 300,000 suburbanites earn their living in Chicago, yet pay nothing out that Philadelphia has levied an income tax on workers in the city averaging \$35 to \$40 per person.

A Maywood resident and an Evanstonian took the case for the suburbs, and maintained that the suburbs owe Chicago nothing considering the hundreds of thousands of dollars spent in Chicago by suburbanites, and that before any such annexation is contemplated the city should get its own house in order.

One of the points made by the opposition was the migration of city residents to the suburbs. There must be some attraction to account for this, and although city and suburbs have problems much in common, a payroll tax or annexation is not the solution.

Residents of suburban villages, and particularly village officials, may well be on guard, for Chicago is looking outside of its boundaries, and will have no scruples in taking advantage of every possible loophole and situation it finds to meet its ends.

Disgusted Citizens Blame Parents On Local Problem

Complaints have reached this office recently about certain conditions in Mokena which need correction. The complaints seem to center around a group of young folks who spend much of their evenings loitering around the streets, principally in front of Ida's Sweet Shop.

Some of our good citizens appear to be remorseful over the fact that our community offers "nothing for the young folks to do", and feel that it is the community's obligation to purchase property for a park, field house, etc., in order to provide activities to keep the young folks off the streets at night.

The remedy is far simpler than this, according to our informant, that if these children's parents would send them to high school, where they belong, the children would have no difficulties in acquiring duties and activities that would keep them off the streets.

The curriculum of any modern high school offers more than enough to keep any normal youngster busy and happy. It is hardly the problem of the community to take over because the parents of the children have failed them, allowing them to leave school before the proper time, thus wasting some of their best years and possibly depriving them of opportunities for success in life that every young person should have.

Young folks should either be at home at night studying their lessons, or else attending such normal activities as school dances, etc., instead of prowling around the streets where, sooner or later, they are bound to get into mischief, or possibly sustain a serious injury.

The curriculum of any modern high school offers more than enough to keep any normal youngster busy and happy. It is hardly the problem of the community to take over because the parents of the children have failed them, allowing them to leave school before the proper time, thus wasting some of their best years and possibly depriving them of opportunities for success in life that every young person should have.

Young folks should either be at home at night studying their lessons, or else attending such normal activities as school dances, etc., instead of prowling around the streets where, sooner or later, they are bound to get into mischief, or possibly sustain a serious injury.

LINCOLNWOOD HILLS

A growing community in New Lenox township. Two years ago only about 15 residents lived in this subdivision. Today there are over 40 homes and families and new residences are being built every month. Added to it, which has been an attribute to our subdivision, has been the construction of a new and modern building which consists of the office of the Fredin Construction company and the Lincolnwood Drive-In and grocery.

A homeowners association has been organized of which Ralph Oldt is president, Claud Clay, vice president, and Mrs. Bernard Wahl, secretary. They and other people of our community have done everything possible to make this a live and growing project, a wonderful and proud place to live.

A weekly column will be published in the News-Bulletin concerning all the local news and gossip of the immediate residents by columnists Mrs. Walter Ritt and Mrs. Robert G. Berls. Any news that can be furnished for publication would be gratefully accepted by either party by calling New Lenox 5321 or notifying personally. The News-Bulletin will be available for house to house delivery every Thursday by a local boy, Danny

**YOUR FIRST
FIELD TEST WILL
CONVINCE YOU... THERE'S
MORE POWER IN A MASSEY-HARRIS**

● The real test of a tractor's worth is how it performs in the field. That's where the best machine shows its heels to the pack... that's where you'll see and prove the difference in a Massey-Harris.

Climb up on the roomy platform, check the comfortable seat, the visibility and the handy controls. Press the automatic starter and feel the pep in the 4-cylinder, super-powered engine. Swing into your field and see how easily it handles routine work... how quickly it responds with extra lugging power when you hit a tough spot. Try it on a heavy belt job too. Once you have, you'll agree, "There's more power in a Massey-Harris."

BASKETBALL

Basketball season is here again. The first game of Orland's 1952-53 season was played Nov. 14, when the Eagles of district 230 defeated Peotone's "A" team by a score of 60-57.

The "B" team didn't do so well. It lost to Peotone's second five by a final score of 46-24. This was a profitable game for both the varsity and the second string five, as both teams were able to recognize their weaknesses and prepare themselves for their conference games.

High scorer on the "B" team was Ken Sayers with 11 points. Kenneth Peterson was high on the varsity with a total of 20 points. Paul Ebeling was elected as captain of the varsity for their first game.

CARD OF THANKS

We wish to gratefully acknowledge the many kindnesses and expressions of sympathy shown us at the time of the death of our son Welby Dahlman. Also to The Rev. Mr. Gustafson and all others for their kind services and for the many beautiful floral offerings.

Mr. and Mrs. Joseph Wondrasek

IN MEMORIAM

To Welby Dahlman

Loyal and Faithful, kind to the end
Respected and loved was Welby, our friend
A railroad man and a sailor too
He was loved by people like me and you.

God gave him brains, and friends by the score
And the will to progress and many things more
And he marched along taking all in its stride
Thinking only of helping those by his side
And then God needed an engineer,
To see that home bound track was clear.

So he called for Welby
And he answered his call,
And tonight he dispatches
The road for us all.

All Clear! Amen.
